

Cyanotech sets the Gold Standard for Astaxanthin

Patent protection, extensive PR and consumer advertising make BioAstin® the best selling brand in the world. The following set of metrics and markers validate the quality standard that others strive to emulate:

Cyanotech's 90 acre microalgae farm.

Nutritional Quality & Stability

- Clinically validated efficacy in double-blind, placebo-controlled human trials
- Nutrition content reported as "pure astaxanthin" as compared to "astaxanthin complex"
- Guaranteed stable oleoresin through solvent-free, supercritical CO2 extraction
- Guaranteed stable beadlet through microencapsulation
- Twenty three years of continuous microalgae production and reliable supply

Process Quality

- Production process emulates nature using open culture system
- Cyanotech's proprietary analytical method accepted by United States, Canadian and Japanese governments
- Cultured in high quality drinking water from Hawaiian aquifer
- World's largest producer of natural astaxanthin

Safety

- Produced using current Good Manufacturing Practices (GMP certified by the Natural Products Association)
- ISO 9001:2000 Certified Quality Management
- Certified Pesticide and Herbicide free
- Guaranteed GMO free and non-irradiated
